

Welbeck Primary School

SMSC Policy

Reviewed Summer 2021

Policy for Spiritual, Moral, Social and Cultural Values

At Welbeck Primary School we recognise that the personal development of pupils, spiritually, morally, socially and culturally (SMSC) plays a significant part in their ability to learn and achieve. We therefore aim to provide an education that provides pupils with opportunities to explore and develop:

- their own values and beliefs,
- spiritual awareness,
- high standards of personal behaviour,
- a positive, caring attitude towards other people,
- an understanding of their social and cultural traditions
- and an appreciation of the diversity and richness of the cultures.

SMSC is a dimension of the whole school experience which makes the curriculum relevant, stimulating, creative and fun. It enriches each subject and the ethos of Welbeck Primary and is an essential ingredient of school success.

Aims:

- To ensure that everyone connected with the school is aware of our values and principles.
- To ensure a consistent approach to the delivery of SMSC issues through the curriculum and the general life of the school.
- To ensure that a pupil's education is set within a context that is meaningful and appropriate to their age, aptitude and background.
- To ensure that pupils know what is expected of them and why.
- To give each pupil a range of opportunities to reflect upon and discuss their beliefs, feelings and responses to personal experience.
- To enable pupils to develop an understanding of their individual and group identity.
- To enable pupils to begin to develop an understanding of their social and cultural environment and an appreciation of the many cultures that now enrich our society.
- To give each pupil the opportunity to explore social and moral issues, and develop a sense of social and moral responsibility.

Spiritual Development

As a school we aim to provide learning opportunities that will enable pupils to:

- Sustain their self-esteem in their learning experience.
- Develop their capacity for critical and independent thought.
- Foster their emotional life and express their feelings
- Experience moments of stillness and reflection.
- Discuss their beliefs, feelings, values and responses to personal experiences.

- Form and maintain worthwhile and satisfying relationships
- Reflect on, consider and celebrate the wonders and mysteries of life.

Moral Development

As a school we aim to provide learning opportunities that will enable pupils to:

- Recognise the unique value of each individual.
- Listen and respond appropriately to the views of others.
- Gain the confidence to cope with setbacks and learn from mistakes.
- Take initiative and act responsibly with consideration for others.
- Distinguish between right and wrong.
- Show respect for the environment.
- Make informed and independent judgements.

Social Development

As a school we aim to promote opportunities that will enable pupils to:

- Develop an understanding of their individual and group identity.
- Learn about service in the school and wider community.

Cultural Development

As a school we aim to promote opportunities that will enable pupils to:

- Recognise the value and richness of cultural diversity in Britain, and how these influenced individuals and society.
- Develop an understanding of their social and cultural environment.
- Develop an understanding of Britain's local, national, European, Commonwealth and global dimensions.

As a school we recognise the importance of these values because:

- People, staff as well as pupils, achieve better when they feel valued.
- Our beliefs and values influence the way we behave and the community that we live in
- Education is about the development of the whole person

Teaching and Organisation

Development in SMSC will take place across all curriculum areas, within activities that encourage pupils to recognise the spiritual dimension of their learning, reflect on the significance of what they are learning, and to recognise any challenges that there may be to their own attitude and lifestyle. Teachers will inspire pupils through the enthusiasm for and modelling of learning. Teachers at Welbeck Primary will use creative strategies and challenging questions to engage pupils in their learning and relate it to their own experiences.

All curriculum areas should seek illustrations and examples drawn from as wide a range of cultural contexts as possible.

Class discussions and circle time will give pupils opportunities to:

- Talk about personal experiences and feelings.
- Express and clarify their own ideas and beliefs.
- Speak about difficult events, e.g. bullying, death etc.
- Share thoughts and feelings with other people.
- Explore relationships with friends/family/others.
- Consider others needs and behaviour.
- Show empathy.
- Develop self-esteem and a respect for others.
- Develop a sense of belonging.
- Develop the skills and attitudes that enable pupils to develop socially, morally, spiritually and culturally – e.g. empathy, respect, open mindedness, sensitivity, critical awareness etc

Many curriculum areas provide opportunities to:

- Listen and talk to each other.
- Learn an awareness of treating all as equals, and accepting people who are physically or mentally different.
- Agree and disagree.
- Take turns and share equipment.
- Work co-operatively and collaboratively.

A large part of our SMSC work is delivered through the “**50 Things to do at Welbeck**’ challenge which offers all Welbeck pupil’s the opportunities and experiences which will develop them as Global Citizens (See Appendix)

Extra-Curricular Activities

Personal development is also enriched through a wide range of extra-curricular activities (Sport, Drama, Art) which provide opportunities for SMSC and for inspiring pupils to broaden their experience and horizons.

Links with the wider community

- Welbeck Primary works closely with the local community including the Meadows library, St Saviour's church, Sure start Centre, Community centre and gardens and local parks.
- Visitors are welcomed into school.
- The development of a strong home-school link is regarded as very important, enabling parents, teachers and the wider community to work in an effective partnership to make sure that we give our pupils the best possible environment in which to grow, flourish and learn.
- Pupils will be taught to appreciate their local environment and to develop a sense of responsibility to it.

Review

This policy will be reviewed in accordance with the policy review schedule.
