

**WELBECK PRIMARY SCHOOL
LINK GOVERNOR VISIT FEEDBACK FORM**

Name John Downey	Area/Responsibility Health and well-being	Date of visit 1/2/23
---------------------	--	-------------------------

Member of staff/class visited Christopher Marks

Objectives of the visit including links to school development plan

The objectives of the visit were: to get to know Christopher Marks-PE Lead to discuss the changes he has made at the school with respect to health and well-being since being in post and discuss plans for the future.

Strengths identified

Chris is an inspirational character who has already had a transformational impact on the school. The runs before school are fantastic and there is clear evidence of improvement in terms of pupil health and well-being. The data on this and other activities is excellent.

Areas for development and issues to follow up further

It would be great to develop the data further and link it to health indicators eg BMI and to ethnicity. Such data will allow us to assess whether there are disparities between different ethnicities and help us to assess in future whether strategies are working or not. Awards for distance covered by individuals are great. It would be great to have more awards and to have class awards. I like the idea of harnessing the support of parents and community leaders. I think it would be a good idea for the Headteacher to discuss with local Imams as there appears to be a disparity in terms of activity and diet with pupils from a Muslim background.

Action to be taken following report back to governing body, including timescales for reconsideration by governors if appropriate.

Evaluation of visit (include impact on attainment, where is the evidence?)

It was great to meet Christopher and discuss his ideas. We are at the beginning of something very important for the school and hopefully for all Nottingham schools.

Governor	John Downey	Link teacher Christopher Marks
